## 1. Introduction

**UECE - Research Unit on Complexity and Economics** is a research centre of ISEG, School of Economics and Management of the University of Lisboa. UECE produces research, both theoretical and applied, in Economic Sciences and in related interdisciplinary areas.

The main UECE goals are:

- Promoting research on Economic Sciences, with emphasis on theoretical and applied economic analysis, in the areas of Macroeconomics and Monetary Economics, Microeconomics, Markets and Finance, and Complex Economic Systems;
- Developing new statistical methods applied to economics;
- Organising seminars, conferences and other events to disseminate scientific results;
- Participating in international research networks and promoting the participation of researchers in international congresses and conferences;
- Promoting and publishing articles, working papers and other documents to stimulate research in the abovementioned areas.

For the period 2015-2017, UECE was granted financial support from national funds by FCT (Fundação para a Ciência e a Tecnologia), via the Strategic Project: [UID/ECO/00436/2013](#) on the amount of €112,500.00. In this report we present the several research outputs and activities of UECE, covering essentially the year 2016.

Per memory, in the 2013 Evaluation of FCT Research and Development Units classification, UECE obtained the classification of Very Good.

## 5. Research Output

In 2016 UECE published 38 articles in peer-reviewed international academic journals. Considering the publication status in the period January-March 2017, UECE members had at that point published (or had accepted for publication) 19 articles. UECE members also published 22 books and chapters and proceedings and 16 reports and proceedings.

In 2016 UECE members supervised 4 PhD thesis and 22 MSc thesis. In addition 6 international conferences and workshops were organized by UECE members.

As a comparison, during the period 2014-2015, UECE published 50 articles in peer-reviewed international academic journals, of which 32 articles were published in journals indexed in ISI databases. Five additional articles appeared in national journals. In that period UECE also had as outputs: 3 book chapters and 6 contributions to proceedings. Moreover, 5 Ph.D. and 44 M.Sc. dissertations were completed under the supervision of UECE members.

Considering the JEL Codes mostly used in the peer reviewed article publications of the members of UECE it is possible to assess the shares of each topic in UECE's output. For instance, the three topics with a share between 10 and 20% are Macroeconomics and Monetary Economics; Financial Economics; and Mathematical and Quantitative Methods. In addition, topics with shares around 8-9% are International Economics; Labor and Demographic Economics; Public Economics; and Microeconomics.

**Figure 1 - JEL areas of activity in UECE**

Per memory in the “2013 Bibliometric Study” (Table 1), UECE’s productivity was the highest in Economics in Portugal, as seen in the study reported in the FCT site, for 2013. Additionally, and as mentioned by FCT, UECE had “one of the highest shares of internationally co-authored publications”.

Table 1 - Rankings of 2013 FCT study (Economics):  
Institutions in the 2<sup>nd</sup> phase

## 6.3. Ph.D. and M.Sc. programmes

UECE and CEMAPRE jointly host the Ph.D. Programme in Economics at ISEG (School of Economics and Management) at ULisboa (Universidade de Lisboa).

The host institutions play a crucial role in the design of the Ph.D. programme, they supply the vast majority of the members of the academic staff and supervisors, and they create the research framework necessary for the programme and its students.

### Ph.D. Programme in Economics

#### **Programme Direction**

- Miguel St. Aubyn, Coordinator (UECE)
- António Afonso (UECE)
- João Nicolau (CEMAPRE)
- Joana Pais (UECE)

There are currently two M.Sc. courses leading directly to the Ph.D. Programme in Economics at ISEG/ULisboa:

### M.Sc. in Economics

#### **Programme Direction**

- Jorge Santos, Coordinator (UECE)
- Miguel St. Aubyn (UECE)
- Joana Pais (UECE)

### M.Sc. in Monetary and Financial Economics

#### **Programme Direction**

- António Afonso, Coordinator (UECE)
- Miguel St. Aubyn (UECE)
- Rosa Borges (UECE)

UECE also organizes courses for graduate students, like the Refreshment or Preliminary Courses for M.Sc. and Ph.D. students. Usual courses include:

- Introduction to Econometrics
- Introduction to Mathematical Economics
- Introduction to Microeconomics
- Introduction to Macroeconomics

### **Other Ph.D. Programmes at ISEG/ULisboa**

UECE is also involved in other Ph.D. programmes at ISEG/ULisboa, namely the Ph.D. Programme in Management (jointly with Advance and CEMAPRE), the Ph.D. Programme in Mathematics Applied to Economics and Management (jointly with CEMAPRE), the Ph.D. Programme in Economic and Social History (jointly with GHES), and the Ph.D. Programme in Development Studies (jointly with CEsa, GHES, and SOCIUS).

### **6.4. FCT Individual projects**

In the 2015 FCT call for individual projects, UECE researchers, with 3 funded projects that have UECE as the Principal Research Organization had a success rate of 43%, which compares with the national success rate of 13%. In addition, another successful project that has UECE as a Participating Organization was also financed.
